Ο skylos tou geitona

Stou geitona to spiti
sti siderenia porta
mprosta apo ta kagkela
kai pano apo ta chorta.

Υparchei pinakida
pou grafei oti o skylos
dagkonei afou den xerei
an eisai echthros i filios.

Ma opoios dei to skylo
tha planei tin koilia tou
ap' ta polla ta gelia
kai ta chachanita tou.

Giati o skylos einai
mikros san mia sardela
ta dontia tou den kovoun
giati fora masela.

The neighbor's dog

In the neighbor's house
on the iron door
in front of the fence
and on the grass.

There is a label
that writes that the dog
may bite you because he doesn't know
whether you're an enemy or a friend.

But whoever may see the dog
is going to split their sides
laughing a lot
and giggling.

Because the dog is
so small like a sardine
he cannot bite
because he has denture.
